

"This leads to the further reflection, that no other human occupation opens so wide a field for the profitable and agreeable combination of labor with cultivated thought, as agriculture."

—Abraham Lincoln

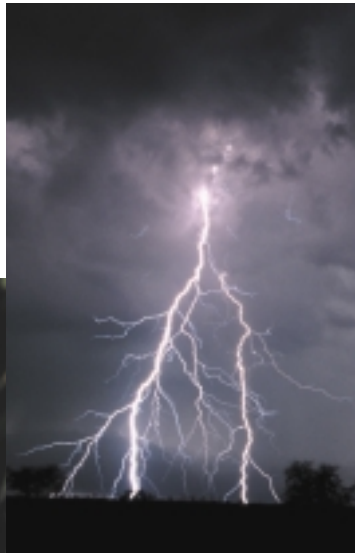

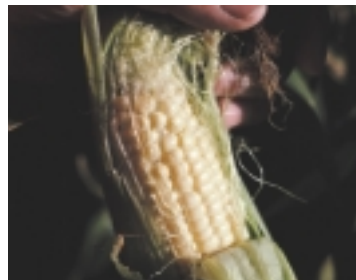

Keystone Commodities Co. brings over 100 years of traders' experience to the Northeast. Keystone is a division of Agri Advisory Associates, Inc. of Wooster, Ohio. Agri was founded in 1988 as a branch of Stotler & Co., a futures commission merchant. Lavon Daugherty, the principle trader at that time, started the business after almost three decades of experience in futures trading and commercial grain. Shortly thereafter it branched into cash grain trading and in 1990 Agri purchased a grain elevator in North Central Ohio. After selling the elevator in 1998, Agri entered the cross-country grain merchandising business again in January 1, 2000 as Keystone Commodities Co. Currently Agri Advisory Associates, Inc. is a guaranteed introducing broker clearing through ~~Refco, LLC.~~ Cash grain business is handled through Keystone Commodities Co. The two companies, Agri Advisory Associates, Inc. and Keystone Commodities Company, complement one another and provide our customers a comprehensive source for risk management and marketing services.

Keystone Commodities Co. specializes in providing grain producers a market for their crops and supplying manufacturers of bread, meat, milk and eggs with grains and raw ingredients. Keystone offers customers daily market prices on grains and feed ingredients using information on local cash grain bids and basis values from across the country. Keystone Commodities Company currently has offices in Wooster, Ohio, Mifflintown, PA, and Lancaster, PA, and Andover, OH.

Keystone offers customers innovative solutions to marketing and logistical challenges related to merchandising and transporting products from point to point. Our diversification allows us to build relationships with

animals and hungry people, the truckers provide not only us; but also, every member of the food chain an essential service. We strive to find balance between economical transportation services for our customers without forfeiting the excellent, dependable service that customers need.

As an additional service for our trucking companies and customers, Keystone offers freight brokerage services. Our freight brokerage service allows Keystone to move trucks and products that we don't own or have financial interest in from place to place. Our freight brokerage services move trucks from areas where we don't own product into areas where we need transportation equipment, on and off your farm or facility. This not only helps to provide our customers with superior service, but also allows our carriers to work more efficiently.

**There is risk of loss trading futures.

Keystone Commodities Company's success and fast growth is a result of the high quality of work done for our customers. The illustrations in this brochure represent the

continuous circle we all depend on. As illustrated by the photos, we each play a key role in feeding the people of the world. We are driven by the relationships we make with our clients and diligently work to delight our customers and fulfill their specific needs. Agri Advisory Associates, Inc. and Keystone Commodities Company have built an enduring competitive advantage in our marketplace by providing customers with key market information, assisting in sound business decisions, and offering dependable superior service. We recognize the complexities of the current agricultural industry and have built our business around helping your business succeed.

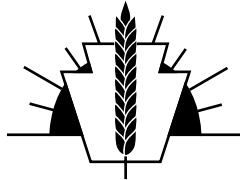

We don't measure
the success of our business
by our size, but by the
quality of the work
done for our customers.

businesses that not only need ingredients sourced and delivered; but also, with farmers and dealers that need critical marketing services. Allowing you to participate in the marketplace every minute of everyday, we will help you set price targets or goals for your operation. We offer forward contracts to producers and manufacturers to help reduce risk in this unpredictable marketing environment. In addition to forward contracts, we can write basis contracts, minimum price and maximum price contracts, and other cash contracts with customers making our clients more competitive in today's business climate.

We are buyers, suppliers, and transporters of the following grains and feed ingredients:

- Corn
- Soybeans
- Wheat
- Roasted Soybeans
- Barley
- Oats
- Milo
- Buckwheat
- Soybean Meal
- Rye
- Bakery Feeds
- Citrus Pulp Pellets
- Beet Pulp
- Whole Cottonseed
- Corn By Products and Derivatives
- We also source and market specialty items (please call for details)

Our team of hired independent trucking companies allows Keystone to offer our customers dependable responsive service. We utilize only the best carriers that are accustomed to hauling grain and feed products. Equally as important to our business as hungry
